

Using Landro Multi-View

In order to use the multi-view play analysis tools of the Landro Multi-view Upgrade, you'll need to perform a few additional steps. Overall, these are the basic steps:

Game List screen

Play Transfer screen (from Step 4)

Game Search screen (from Step 5)

STEP ONE - RECORD EACH CAMERA ANGLE GAME INTO LANDRO

- ▶ Follow steps 1-2 on page 3 of your manual to setup and record each of the camera angles of the game into your Landro. Be sure as you are setting up your recording that you select the appropriate camera angle for each game (as you've set them up in the Playbook...refer to page 2 of your manual for information on how to setup your Playbook).

STEP TWO - MARK EACH CAMERA ANGLE GAME

- ▶ Follow step 3 on page 3 of your manual to mark each of the plays for each of the camera angle games.

STEP THREE - CLASSIFY ANY ONE OF THE CAMERA ANGLE GAMES

- ▶ Follow steps 1-2 on page 4 of your manual to classify each of the plays for any one camera angle of the desired game (not necessary to classify each of the camera angles, only 1).

STEP FOUR - TRANSFER PLAY INFORMATION FROM THE CLASSIFIED CAMERA ANGLE GAME TO THE MARKED CAMERA ANGLE GAME(S)

A. ARROW to the game whose camera angle you've marked and classified, and press the **yellow** SELECT/ENTER button

B. ARROW to "Transfer plays to another Game" and press the **yellow** SELECT/ENTER button
(From Game will default to the game that you've just selected)

C. ARROW to To Game and press the **yellow** SELECT/ENTER button, then ARROW to the game that you've already marked (but not classified) and press the **yellow** SELECT/ENTER button

- ▶ **VERY IMPORTANT:** the game that you're transferring play classification from and the game that you're transferring play classification to must have the same number of plays marked.

D. ARROW to Save and press the **yellow** SELECT/ENTER button

STEP FIVE - FIND ANY PLAY AND ANALYZE IT FROM MULTIPLE ANGLES

A. Press the **yellow** GAME SEARCH button

B. With Team highlighted, press the **yellow** SELECT/ENTER button, then ARROW to the Team to analyze and press the **yellow** SELECT/ENTER button

C. Select Week and Season in the same way, and leave Camera set to All

D. Press the **green** PLAY SEARCH button to perform multi-game analysis on all game search results

- ▶ Use the Multi-Game Play Search screens the same way you would use the individual game Play Search screens.

E. If you have chosen to analyze plays using multiple camera angles, you can sort whether the plays are chronological per game camera angle or intercut multiple camera angles by pressing the **white** SORT button, ARROW to "Group by Games" or "Group by Play Numbers" and press the **yellow** SELECT/ENTER button

F. Press the **green** PLAY/PAUSE button

G. When you have finished analyzing the selected games' plays, press the **yellow** ESC/BACK button
